Worksite Assessment Networking

2020 NTW Unconferencing Session
The folks with muddy boots and tape measures!

• Introductions
  • Name, project affiliation and an uncommon piece of AT you have recommended in the past year

• We want to hear from YOU!! (p.s. you might win a prize)
Tips for Successful Worksite Assessments

What is one thing you’ve learned in the past year that had a huge impact on how you conduct your worksite assessments?
Tips for Successful Worksite Assessments

Are you bringing other service providers onto the farm with you? If so, what benefits or what challenges has this included?
Tips for Successful Worksite Assessments

Do you give the client ‘homework’ or action items before leaving the farm? If so, how do you provide this information and how do you follow up?
I Spy!
Raising Meat Rabbits

- Providing feed, water and general care to 80+ rabbits two times per day
- Individual has limited mobility and back pain
- Pens are currently suspended approx. 3 feet above the ground
- Individual is not eligible for VR
Breeding and raising sheep for 4-H projects and meat production

- Individual has low vision
- Breeding ewes are kept in this barn pen or on pasture
- Individual farms alone
Beef Farmer

- Shoveling or pushing feed towards the cattle multiple times per day
- TBI, back pain, arthritis (hands and shoulders)
Thank you!
