

The background of the entire image is a dense, close-up photograph of green hosta leaves. The leaves are large, heart-shaped, and have prominent, light-colored veins. They are layered and overlapping, creating a rich, textured appearance with varying shades of green and some darker shadows.

Legacy Taste of the Garden, a Legacy created/passed on by Greer Farms. Black Farmers farming since 1855.

Legacy is a family farm operation that was created to pass on generational knowledge of *Sustainable and Entrepreneurial living.*

Legacy desires to help bring back the knowledge of Growing and using Fresh Produce, and teaching how to obtain a lifestyle in agriculture, entrepreneurship and self sustainability. Our goal is to close the gap between local producers and the local consumer, which will support the Communities Economic Vitality.

Legacy's mission is to Empower individuals and communities to become self sustaining and economically sound through Education, Networking, and Providing Information toward a *Healthy, Sustainable, Empowered Life.*

We provide information and training on growing and the benefits farming. Legacy strives to create a hub and network of individuals, co-op's and communities in the farming arena. Through the network, all aspects of the Agriculture world can be at the hands of those who desire to enhance their farming desires.
